

## HAIR REBORN

REGENERATE, STRENGTHEN,  
AND PREPARE HAIR FIBER

UNIQUE SELLING POINT

Our products are manufactured in compliance with the highest standards, including GMP (Good Manufacturing Practices), ISO 9001 certification, and hold a Free Sale Certificate. We ensure that all our products meet or exceed European manufacturing regulations, providing exceptional quality and safety for our customers.

### HIGHLY FORMULATED AND STABILIZED

Hair Reborn is not just a treatment; it's a scientifically advanced formula. Our product stands out with its superior quality and premium active ingredients like Coffea Arabica Seed Extract, Tilia Tomentosa Extract, and Hydrolyzed Soy Protein. These components not only ensure revitalized and strong hair but also enhance overall hair health and shine.

### UNMATCHED PERFORMANCE AND YIELD

Each bottle of Hair Reborn is 150 ml, with an intelligent spray system ensuring precise and efficient product distribution. This results in 20 to 25 applications per bottle, which is nearly unbeatable when compared to other treatments that often require more product per application.

### COST-EFFECTIVE AND HIGH YIELD

With Hair Reborn, you get more value for your money. Our larger bottle size and higher yield mean more applications per bottle, reducing costs for salons and ensuring that clients get consistent, high-quality results every time.

### EASY TO USE AND FAST-ACTING

Hair Reborn is incredibly easy to use, allowing stylists to work quickly and efficiently. Its advanced formulation ensures rapid application and development, saving time without compromising on quality.

### PERFECT PRE-BLEACHING TOOL

Hair Reborn is the ideal product to use before bleaching. It strengthens the hair, making the bleaching process less aggressive and ensuring healthier results. This pre-treatment helps protect the hair fiber throughout the bleaching process, providing a foundation for beautiful, long-lasting color.

### ENHANCES COLOR RETENTION

Using Hair Reborn before applying color is strategic, as it significantly improves color retention. This ensures that the color lasts longer and remains vibrant, giving clients the best possible results and a reason to keep coming.
