## THE ULTIMATE HAIR REPAIR MASK

UNIQUE SELLING POINT

Our products are manufactured in compliance with the highest standards, including (GMP) Good Manufacturing Practices and hold a (FSC) Free Sale Certificate. We ensure that all our products meet or exceed European manufacturing regulations, providing the highest quality and safety for our customers.

### HIGHLY FORMULATED AND STABILIZED

Ultimate Repair Mask is not just a hair mask; it's a scientifically advanced formula designed to repair, nourish, and revitalize hair. Our product stands out for its superior quality and premium active ingredients such as hydrolyzed collagen, hydrolyzed keratin, bamboo extract, and a blend of nourishing oils. These components ensure repaired and strong hair, enhancing its overall health and shine.

### UNMATCHED PERFORMANCE AND YIELD

Ultimate Repair Mask delivers visible results with each application thanks to its advanced formulation that maximizes the effectiveness of the active ingredients. With a size of 500 ml and high concentration, it provides between 20 to 25 applications per container, offering a high-quality treatment at a competitive price. The concentrated formula requires less product per application, reducing costs and ensuring consistent, high-quality results with each use.

### APPRECIATED FRAGRANCE

The fragrance of Ultimate Repair has been carefully formulated and stabilized to last between 3 to 4 days, ensuring that the hair maintains a fresh and pleasant aroma throughout. This feature not only enhances the repair and strengthening benefits of the mask but also contributes to an overall sense of well-being, providing a long-lasting and enjoyable sensory experience that elevates the quality of hair care.

### WATERPROOF LABEL

The Ultimate Repair label is waterproof, making it ideal for professional use where wet hands are common. It's also perfect for home use, maintaining its pristine appearance even in the shower, ensuring the product always retains its prestige and premium quality.

### BALANCED PH FOR OPTIMAL REPAIR

Ultimate Repair Mask has a balanced pH, essential for closing the hair cuticle after any chemical treatment. This not only helps retain color and shine but also protects the hair from future damage.

### ESSENTIAL AFTER COLOR AND BLEACHING

After applying color or performing bleaching, Ultimate Repair Mask treats and nourishes the hair, and its balanced pH helps close the cuticle, which is crucial for retaining color and providing unmatched shine. This step ensures the color lasts longer and looks more vibrant.

### OPTIMIZING THE BACK BAR

Working with optimal and utilitarian products like Ultimate Repair Mask in the back bar allows the end client to see immediate results. This facilitates recommending the product for retail sale, which not only keeps the client's hair in optimal condition at home but also increases salon sales.
